

Group 9 Prototype

2 条回复

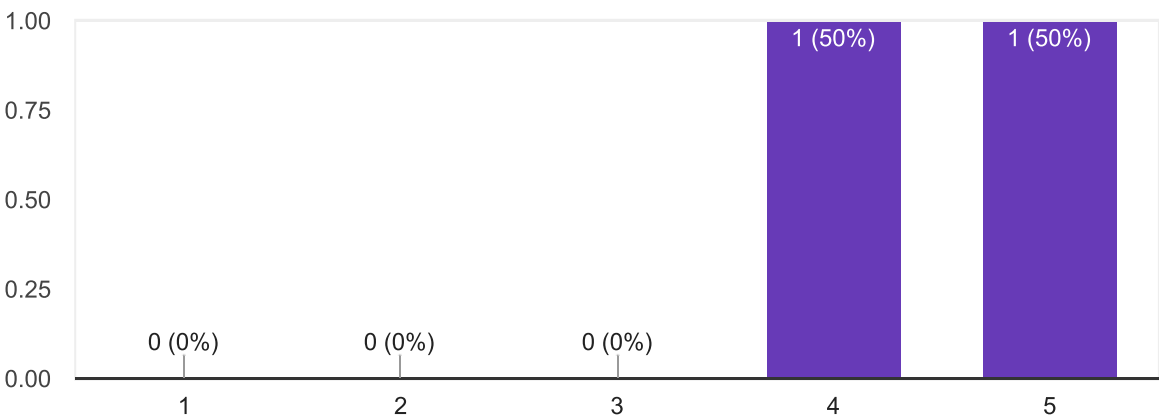

I could understand the introcution and documentation wothout much effort.

(2 条回复)

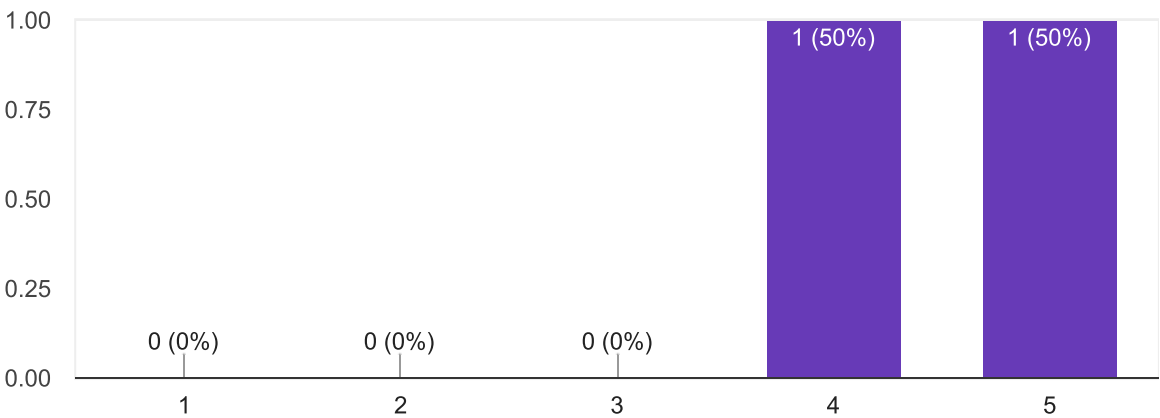

I feel like the device is easy to get started.

(2 条回复)

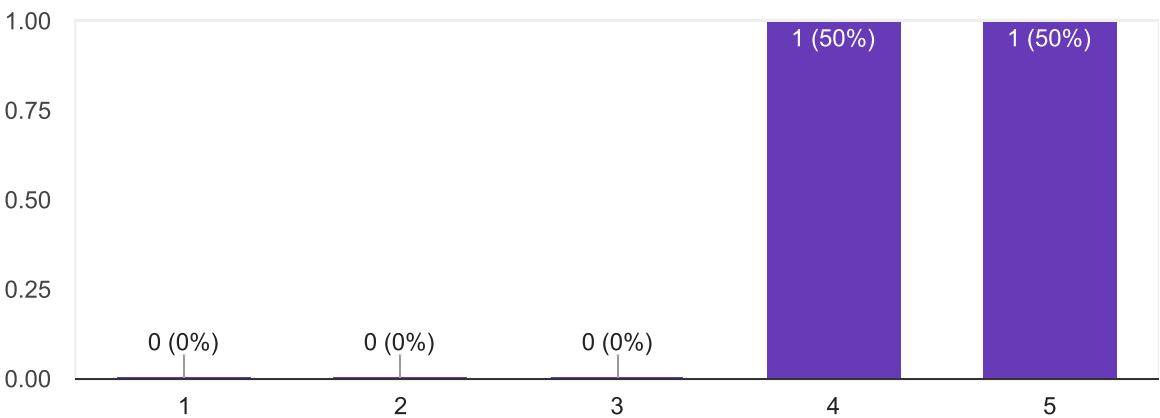

I believe my biking safety will be enhanced with this device.

(2 条回复)

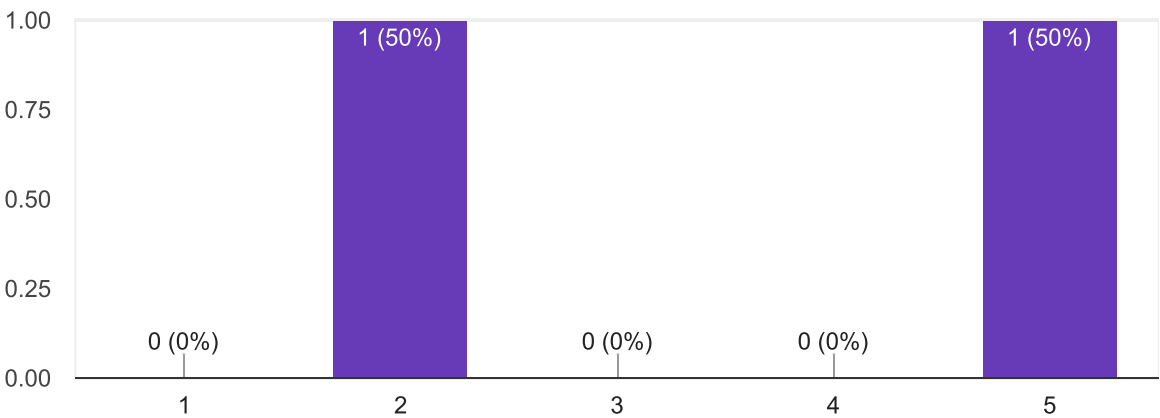

I feel comfortbale with the alert method.

(2 条回复)

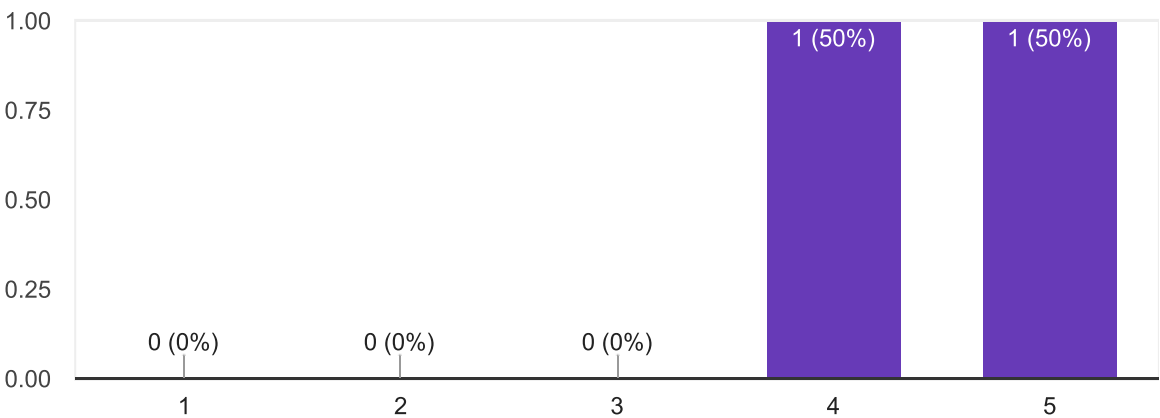

I feel distracted with the alert method.

(2 条回复)

I can respond quickly with the alert.

(2 条回复)

What part of the prototype do you like most?

(2 条回复)

easy to catch the information

The LED light is cute :)

What potential problems do you find in the prototype ?

(2 条回复)

charging and battery

I somehow don't want to lower my head while biking, so the LED light may not be that useful...
